To whom it may concern:

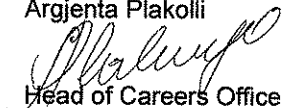

I have known Ermire Berisha since 2016 when she applied for a merit based scholarship here at Riinvest College. Her excellent performance in all admission criterions whereas a full merit based scholarship was awarded to her - were indicators of Ermira's hardworking personality, dedication for life-long learning, persistence for continuous advancement and good interpersonal skills.

The good impressions and reputation that Ermira created amongst the teaching staff and her colleagues thanks to her efforts in maintaining her academic performance as well as excelling in other scholar and extra - curricular events quickly established Ermira as an outstanding student in front of her classmates whereas afterwards she was offered a part time job as an Intern at the International Relations Office at Riinvest.

Ermira is bright, reliable and fun to work with. Because of Ermira's proven work habits I would recommend her for any job.

Sincerely,

Argjenta Plakolli
